

Medium - high speed rotary machine.

The 850 rpm rotation speed allows both spray-buffing and spray-cleaning operations.

It is very easy to handle and it can be used in encumbered areas too.

General features:

- Uniform pressure on the disc
- Pad holder pressure adjustment
- Multidirectional movement
- Possibility to work close to the wall
- Handle regulation
- Low noise level
- Motor protection against overheating
- Handle with additional outlet
- Large wheels for transport

Technical features:

Volt:	230	Brush pressure:	10-20 g/cm ²
Hz:	50	Cable length:	12 m
Watt:	1800	Noise level:	58 dBa
Safety class:	I	Peso:	41 kg
Safety level:	IP 20	Machine height:	107 mm
Ø Pad holder:	430 mm	Handle:	SI'
Speed:	850 rpm	CE Certification:	SI'

Main use:

NOVADISC 850 1.800 Watt:

Spray cleaning and spray buffing polishing systems.

Code

NOVADISC 850 1.800 Watt:

614905

Possibility to regulate the brush head weight by moving the pivoting wheels on three different positions.
