

ANTIGRAFFITI K

PROTECTIVE AGENT AGAINST GRAFFITIS FOR FACADES

GENERAL DESCRIPTION

ANTIGRAFFITI K is a solvent based compound formulated for wall protection against graffiti. It prevents the adhesion of posters.

The product prevents the penetration of inks and paints, thus enabling their removal with a paint stripper like SVERNIFLUIDO STRONG or SVERNIDENSO STRONG.

The product does not alter the colour of the surface and can be used on marble, granite, natural stones and concrete. For paints or plasters check for possible small change of colours.

When the graffiti have been removed several times with strippers the product has to be applied again. It is also a water repellent product.

DIRECTION FOR USE

Apply **ANTIGRAFFITI K** by brush or by spray. 100 g/m² gives an adequate protection. The surfaces have to be previously cleaned and dried. On very porous surfaces apply two coats.

TECHNICAL DATA

Appearance	white liquid
Density	0.824 g/ml
Active contents	100%
Viscosity	50-100 cps
Flash point	40°C

WARNINGS

Labelling

Danger

Flammable liquid and vapour. May be fatal if swallowed and enters airways.
May cause drowsiness or dizziness. Harmful to aquatic life with long lasting effects. Repeated exposure may cause skin dryness or cracking.

The product is subject to ADR regulations: **UN 1263 Class 3 PG III**.

Read carefully safety data sheet before use.
