

ARNOX ALTA SCHIUMA CLOROATTIVO

**HIGH FOAM STRONG ALKALINE DETERGENT DEGREASER
WITH CHLORINE**

GENERAL DESCRIPTION

ARNOX ALTA SCHIUMA CLOROATTIVO is an alkaline detergent formulated to remove fats, oils and grease from verticals surfaces and equipments. The foam sticks to the surface and allows the alkali to saponify the fats and other organic residues. It contains chlorine for a disinfectant action.

The product is used for walls and equipments in the food industry, slaughterhouses, dairies, etc. Do not use on aluminium surfaces.

The product uses raw materials allowed by the French Regulations for detergents to be used on surfaces or equipments in contact with foodstuff (Arreté Sept. 8th 1999).

Recommended by Kemika for HACCP plans.

DIRECTION FOR USE

Use the product at 5-10% with high pressure foaming equipments.

Rinse with high pressure water, spraying ANTISCHIUMA 666 directly on the foam to remove it quickly.

TECHNICAL DATA

| | |
|-----------------|---------------|
| Appearance | Yellow liquid |
| pH conc. | 13.8 ± 0.2 |
| pH 2% solution | 12.2 ± 0.2 |
| Density | 1.185 g/ml |
| Active contents | 23% |

Chemical composition – Reg. (EC) 648/2004

- Non-ionic surfactants : conc. 5-15%
- Chlorine-based bleaching agents : conc. 5-15%

The product contains surfactants with primary biodegradability at least 90% and ultimate aerobic biodegradation complying with Reg. (EC) No. 648/2004.

WARNINGS

Do not use on aluminum surfaces.

Labelling

Danger

Causes severe skin burns and eye damage. Very toxic to aquatic life. Toxic to aquatic life with long lasting effects. Contact with acids liberates toxic gas. Warning! Do not use together with other products. May release dangerous gases (chlorine).

The environment classification refers to the pure product in case of relevant release in the environment. (It does not refer to the use solutions discharged in the drains.)

The product is subject to ADR regulations: **UN 1719 Class 8 III.**

Read carefully the safety data sheet before use.
