

CERANERA

BLACK FLOOR POLISH

GENERAL DESCRIPTION

CERANERA is a black floor polish based on natural and synthetic waxes and polymers emulsions, formulated for the protection and maintenance of black rubber floors (dimple type) and for natural dark stone floors, like black slate.

DIRECTIONS FOR USE

Thoroughly wash the new floors with NEOKLIN or ECOKLIN in order to remove the silicon or paraffin coatings applied by the manufacturer, rinse off and let dry for a few hours.

For an initial protection apply one or two coats of **CERANERA** using a brush, a wax applicator or a mop.

For routine maintenance use **CERANERA** at 3-5% solution, as a wash and wax product.

Protect walls and furniture from splashing of the product.

Use DESTRIPE to remove old layers of **CERANERA**.

TECHNICAL DATA

Aspect	Black emulsion
pH	9.0 ± 0.2
Density	1.007 g/ml
Active contents	15%
The quantity of the product needed is about	6-10 g/m ²

WARNINGS

Protect the side surfaces during the application. Keep from freezing.

Do not apply near the entrances or carpet when there is the risk of wetting the floor.

Harmful to aquatic life with long lasting effects.
