

DESTAK

RELEASE AGENT, PAINT REMOVER

GENERAL DESCRIPTION

DESTAK is a water-based, non-flammable and biodegradable solvent. It dissolves all types of glues, including cyanoacrylates. This allows to eliminate the residual glue after the detachment of carpets, posters, etc. It removes drips and smears of glue, residues of stickers and adhesive tapes. It allows you to detach badly glued pieces and glue them again. It dissolves various types of paint and inks. It can be used to remove graffiti, wall writing, pen stains, etc.

DIRECTION FOR USE

Elimination of glues: pour the product on the residues, covering them completely, let it work for a few minutes and scrape away with a dull blade. Rinse and dry.

In the case of fabrics, a final wash may be necessary.

Removing marker, graffiti, pen and biro marks: pour the product on the stains and let it act for a few minutes, rub with a cloth (preferably microfiber) and rinse.

Removing dirt from posters glues, paints: spray the product or apply it with a brush. Let it work for a few minutes and remove with brushes or scrape off. Rinse. If necessary, repeat the operation.

TECHNICAL DATA

Appearance	Light blue liquid
pH	6.5 ± 0.2
Density	1.070 g/ml
Active contents	63%

Chemical composition – Reg. (EC) 648/2004

- Non-ionic surfactants conc. < 5%

The product contains surfactants with primary biodegradability at least 90% and ultimate aerobic biodegradation complying with Reg. (EC) No. 648/2004

WARNINGS

Labelling

Danger

Harmful if swallowed. Causes serious eye damage. May cause drowsiness or dizziness.

The drowsiness and dizziness effect can show for prolonged and repeated inhalation of the product.

Read carefully the safety data sheet before use.
