

DESTRIP

DETERGENT AND WAX STRIPPER

GENERAL DESCRIPTION

DESTRIP is a low foam stripping detergent formulated for the removal of old coats of metallized floor polishes like ULTRAS and for the cleaning of floors. For double crosslinked metallized floor polishes, like MEGA, RESACRYL 2000 and KLER, use ECSTRA.

DIRECTION FOR USE

Apply a 10% solution of **DESTRIP** (preferably in warm water) and work with a floor machine equipped with a green or brown pad for PVC and brown or black pad for granite and terrazzo floors. Vacuum off and rinse with water.

Badly worn, porous floors, might need a second rinse with water before applying a new coat of floor polish.

TECHNICAL DATA

Appearance	yellow liquid
pH	12.3 ± 0.3
Density	1.055 g/ml
Active contents	30%

Chemical composition – Reg. (EC) 648/2004

- Anionic surfactants	conc. < 5%
- Non-ionic surfactants	conc. < 5%
- Soap	conc. < 5%
perfumes	

The product contains surfactants with primary biodegradability at least 90% and ultimate aerobic biodegradation complying with Reg. (EC) No. 648/2004.

WARNINGS

Do not use **DESTRIP** on linoleum floor (jute backing). Use DEKA P NEUTRO pH 7 for this type of floor.

Labelling

Danger

Causes severe skin burns and eye damage. May cause respiratory irritation.

The product is subject to ADR regulations: **UN 1760 Class 8 III**

Read carefully the safety data sheet before use.
