

IDROSTOP FLUIDO SPECIAL

**WATER-REPELLENT ANTI-RISE PROTECTIVE
FOR WET OR COMPACT SURFACES**

GENERAL DESCRIPTION

IDROSTOP FLUIDO SPECIAL is a water repellent anti-impregnating fluid for surfaces in terracotta, natural stone, cement, agglomerates, grits, bricks, plasters.

IDROSTOP FLUIDO SPECIAL is particularly suitable for the protection of damp floors and external surfaces, in cases where other types of protective products would not be able to be absorbed.

IDROSTOP FLUIDO SPECIAL prevents the absorption of water, avoids the formation of white efflorescence, algae and molds, and damage caused by pollution.

DIRECTION FOR USE

Apply **IDROSTOP FLUIDO SPECIAL** with a wax applicator on floors and with a brush or with low a pressure sprayer on vertical surfaces. The water-repellent effect occurs after the surface has dried.

TECHNICAL DATA

Appearance	colourless liquid
Density	0.917 g/ml
Active contents	100%
Flash point	36°C

WARNINGS

Labelling

Warning
