

LAVAMANI PLUS

HANDS DETERGENT FOR INDUSTRIAL USE

GENERAL DESCRIPTION

LAVAMANI PLUS is a blend of surfactants and coconut derivatives formulated at the pH of the skin. It does not dry out the skin even if it solubilizes grease, oil, engine oil, etc. It does not contain phosphates, solvents or abrasives.

LAVAMANI PLUS is widely used in metal and mechanical industry in workshops, in garages, industries, etc. It can replace, along with a nail brush, the traditional abrasive paste that can clog waste pipes and cause skin irritation.

DIRECTION FOR USE

Pour few grams on the hand then work with a little water to solubilize the dirt. For the nails use a small brush with a few **LAVAMANI PLUS** drops. Rinse with warm water if possible.

TECHNICAL DATA

Appearance	yellow dense liquid
pH	6.2 ± 0.3
Density	1.030 g/ml
Active contents	15%
Viscosity	700-900 cps

Ingredients (INCI name):

Aqua (Water), Sodium Coceth Sulfate, Cocamide Dea, Sodium Chloride, Cocamidopropyl Betaine, Parfum (Fragrance), Citric Acid, Magnesium Chloride, Magnesium Nitrate, Methylchloroisothiazolinone, CI 19140, Methylisothiazolinone, CI 16255.
