

LUCE ECO

FLOOR POLISH ECOLABEL

Reg. Nr. UW 1345
ECOLABEL AUSTRIA

GENERAL DESCRIPTION

LUCE ECO is a floor polish that comply with the Austrian Ecolabel criterias.

It contains acrylic polymer emulsions and waxes with good traffic resistance and washing resistance to detergents and disinfectants.

It is easy to apply and it is especially indicated for the polishing and the protection of resilient floors (pvc, rubber, linoleum) also in high traffic areas like hospitals, schools, offices, etc.

It leaves a coating with good sealing and high gloss.

LUCE ECO can be maintained with the high speed system to achieve the wet look and to harden the film.

Stripping is delayed and less detergent is used during the lifetime of the treatment.

DIRECTIONS FOR USE

Application:

Apply 20g/mq on a clean and dry floor using an applicator. If necessary apply 2-3 coats. Let the film dry properly between the coats.

Maintenance:

Use a high speed machine (800-1500 r.p.m) to eliminate scuff marks and get the high gloss. Use a pad for high speed (cream or natural fiber). Use the maintenance Ecolabel detergent TOC ECO.

TECHNICAL DATA

Appearance	white liquid
pH	8.4 ± 0.2
Specific weight	1.032 g/ml
Dry solids	23%
Active contents	28%
Coefficient of friction (ASTM D 2047-75)	0.52

ECOLOGICAL CHARACTERISTICS

The product is formulated according to the Austrian Ecolabel criterias. Absence of APEO, zinc, formaldehyde derivatives.

No EDTA, no DTPA, no poliphosphates, no Aromatic hydrocarbons and no Phtalates.

The packaging is made with 50% of recycled poliethylene.

No toxic, no harmful components.

Use the suggested dosages to reduce the environmental impact.

Dispose canisters, caps and labels, when completely empty, into the plastic recovery bins.

WARNINGS

Keep from freezing.

Product is not dangerous.
