

MAGIC SUELO BIANCO

FINISHING CRYSTALLIZER FOR MARBLE AND TERRAZZO FLOORS

GENERAL DESCRIPTION

MAGIC SUELO BIANCO is used for the final and glossy finishing of marble and terrazzo floors crystallized with **MAGIC SUELO BASE** or when the floor is in good condition or prepared with the DID pads. The preparation of the floor with **MAGIC SUELO BASE** is not always necessary but is suggested for best results after the preparation with the **DIAMANT FLEX G-800**.

DIRECTIONS FOR USE

Floor preparation

Wash the floor with a detergent or a wax stripper to remove dirt and wax residues.

A damaged or scratched floor has to be prepared with the **DIAMANT FLEX SYSTEM** (disc G-800) and treated with **MAGIC SUELO BASE**.

The floor can be prepared also with the DID pads (Diamond Impregnated Pads) up to DID 3 for high gloss and finally protected with **MAGIC SUELO BIANCO**.

Application

The floor must be completely dried and clean. Spray small amount of product on 5-8 m². Work with a rotary machine and steel wool pad and buff until dry (approx. 10-20 seconds/m²). Apply 2-3 coats. Best results are obtained using a rotary machine of 60 kilos like the Novadisc 51 S and the steel wool pad Disco Magic. Change the pad when too wet. If necessary eliminate the residues of the steel pad with a wet mopping.

Maintenance

The floor crystallized with **MAGIC SUELO BIANCO** can be maintained with the same product. For routine maintenance wash with the low residue detergent TOC.

TECHNICAL DATA

Appearance	White liquid
pH	1.5 - 2.5
Density	1.135 g/ml
Active contents	25%

WARNINGS

The product may show separation on long storage. Shake well before using.

Labelling

Danger

Harmful if swallowed. Causes severe skin burns and eye damage.

Read carefully the safety data sheet before use.
