

# OXIDAL PU

## HYDROGEN PEROXIDE AT 2%

### GENERAL DESCRIPTION

**OXIDAL PU** is a ready to use stabilized solution of Hydrogen Peroxide at 2% (20000 ppm). It is used for the oxidation and sanitization treatment in sanitary areas, offices, bus, cars, trains, toilets, etc.

It oxidizes organic dirt on surfaces and has a sanitizing and cleaning effect.

The Hydrogen Peroxide is recommended by the Ministry of Health, by the World Health Organization and by other recognized organizations for environmental sanitation in case of pandemic.

**OXIDAL PU** at 2% contains 20000 ppm of hydrogen peroxide.

### DIRECTION FOR USE

For Hydrogen Peroxide, the recognized health organizations recommend to use the product at the concentrations of 0.5% (5000 ppm) with contact times of 5 minutes. **OXIDAL PU** with 20000 ppm of Peroxide, is active after 2 minutes of contact time for direct application on surfaces using a cloth or paper. Apply 5-10 g/m<sup>2</sup> using paper or microfiber cloths and let dry. For floors, distribution can be improved using the disposable microfiber flat mop Microfast. For use with atomizer spray system, apply the product properly on the surfaces and let act for at least 45 minutes. Protect sofas and armchairs in textiles.

### TECHNICAL DATA

Appearance	colourless liquid
pH	2.4 ± 0.2
Density	1.011 g/ml
Peroxide	2% (20000 ppm)
O <sub>2</sub> volumes	7.5

### WARNINGS

The product is not classified as dangerous
