

QUATISOFT

CONCENTRATED SOFTNER FOR WASHING MACHINES

GENERAL DESCRIPTION

Concentrated softener formulated for all types of textiles (wool, cotton, natural and synthetic fibers).

It gives to the linen a "soft hand" and makes ironing easier.

Particularly formulated for industrial washing machines.

To be used in place of ACISOFT for water with low hardness (less than 15° F) and low alkalinity (less than 200 mg/l) or in case it is used LAVIPER as an alkalinity neutralizer during the first rinsing cycle.

DIRECTION FOR USE

Use the product with automatic dosing system.

Average dosage: 5-10 g/kg dry linen in the last rinsing cycle.

The 5 g/kg dosage is for garments like shirts, overalls, etc.

TECHNICAL DATA

Appearance	green liquid
pH	2.1 ± 0.2
Density	0.997 g/ml
Content of the softening component	7.5%
Solubilizers and neutralizer of alkalinity	7%

Chemical composition – Reg. (CE) n. 648/2004

- Cationic surfactants conc. 5-15%

perfumes

The product contains surfactants with primary biodegradability at least 90% and ultimate aerobic biodegradation complying with Reg. (EC) No. 648/2004.

WARNINGS

Do not mix with other detergents. Do not use on microfiber.

Labelling

Warning

Causes serious eye irritation. Causes skin irritation.

Read carefully the safety data sheet before use.
