

SANIZYM 3C

CONCENTRATED BIOLOGICAL DEODORANT FOR HIGH-USE TOILETS

GENERAL DESCRIPTION

SANIZYM 3C is a concentrated liquid based on selected bacterial strains that decompose organic residues and urea for the hygiene and the deodorization of toilets and surfaces. It is used in hotels, restaurants and in public toilets when it is necessary to eliminate bad smells produced by organic matters.

SANIZYM 3C is available in the "Bombolino" version, in the 1-liter dispenser bottle or in 5-liters tank to be used after appropriate dilution.

Bacterial strains belong to Class 1 as defined by Annex XLVI of Decree Law 81/2008 and are considered non-pathogenic for humans, animals and plants.

USE CONDITIONS

BOMBOLINO: Screw the "Bombolino" on the bottom of the bottle and add water until the 750 ml mark.

For W.C. and urinals spray the product on the walls and rub with the brush.

Rinse and spray some more product on the walls.

1 liter dosing bottle: for W.C bowls and urinals apply 1-3 doses on the walls and spread the product with a brush.

For floors use 1 dose in 5 litres of water to wash with mop or flat mops.

5 litres tank: Apply the 30ml dosing pump on the tank and dose as indicated above.

To use in a 750 ml bottle: dose 250 ml of **SANIZYM 3C** and 500 ml of water.

TECHNICAL DATA

Appearance	White liquid
Parfume	fruity
pH	7.1 ± 0.2
Specific weight	1.004 g/ml

Chemical composition - Reg. (EC) n° 648/2004

- Non-ionic surfactants conc. < 5%

Perfumes, Alpha-Isomethyl Ionone, Benzyl Benzoate, Citral, Citronellol, Geraniol, Hydroxycitronellal, Limonene, Linalool, Dimethyl Phenethyl Acetate

The product contains surfactants with primary biodegradability at least 90% and ultimate aerobic biodegradation complying with Reg. (EC) No. 648/2004.

WARNING

The product fears frost and strong heat.

Do not use together with acids, disinfectants and hypochlorites products at the same time.

The product is not classified as dangerous. Avoid contact with eyes.
