

SANIZYM

BIOLOGICAL DEODORIZER FOR ORGANIC RESIDUES

GENERAL DESCRIPTION

SANIZYM is a liquid cleaner containing a selection of bacterial cultures specific for the hygiene and deodorization of toilets.

SANIZYM cleans the surfaces and removes biologically the organic residues that cause bad smells.

SANIZYM is particularly suitable for removing urine traces and can be used in WC, urinals, showers, on toilets surroundings, on floors of nursing homes, etc.

DIRECTION FOR USE

WC and urinals: spray the product on walls and rub with a brush. Rinse and then spray again a little quantity of the product on the surfaces.

Showers and ceramic tiles: use the product at a dilution of 30-50% without rinsing.

Floors: Dilute at 5-10% and wash with a mop or flat mops.

TECHNICAL DATA
