

SIRIO ACQUE DOLCI

**RINSE AID FOR INDUSTRIAL DISHWASHING
(SOFT WATER)**

GENERAL DESCRIPTION

SIRIO ACQUE DOLCI is a rinse aid for automatic dishwasher using soft water (hardness < 10°F) or water processed by softeners or water with low alkalinity.

It makes easier the rinsing and drying of dishes avoiding the formation of scale on crockery and cutlery.

SIRIO ACQUE DOLCI is dosed automatically in rinse phase.

Recommended in KEMIKA HACCP plans

DIRECTION FOR USE

The product is dosed by automatic system with adjustable peristaltic pumps.

For belt machines set the pump at 1.5-2.5 cc / minute, (0.4-0.7g / l) for rinsing water volumes of 200-400 liters / hour.

Dose for water hardness = 5-10 °F and alkalinity < 200 mg/l: 0.4-0.6 mg/l

When hardness and alkalinity is higher use SIRIO INDUSTRIALE.

TECHNICAL DATA

Appearance	light blue liquid
pH % in distilled water	3.0 ± 0.2
Density	1.039 g/ml
Active contents	18%

Chemical composition – Reg. (EC) 648/2004

- Non-ionic surfactants : conc. < 5%
- Anionic surfactants : conc. < 5%

The product contains surfactants with primary biodegradability at least 90% and ultimate aerobic biodegradation complying with Reg. (EC) No. 648/2004

WARNINGS

The product may change in colour as it is sensible to light. This colour changing does not modify its efficacy.

Labelling

Warning

Causes serious eye irritation.
Read carefully the safety data sheet before use.
