

TOC

LOW RESIDUE NEUTRAL DETERGENT

GENERAL DESCRIPTION

TOC is a low residue neutral detergent that provides good cleaning and does not leave residues on surfaces. **TOC** does not require rinsing.

TOC is particularly suited to wash floors treated with floor polishes, for ceramic or klinker floors, marble and granite.

TOC is available in different perfumes (Lavender, Apple, Lotus flower, Fresh).

TOC solution is compatible with the chlorine disinfectant tablets BIOSPOT to make an efficacious detergent- disinfectant solution.

DIRECTION FOR USE

Use **TOC** at 3-5% with mops or microfiber flat mops.

TOC can be used with an scrubber-dryers at concentration of 2-3%.

Add 1 chlorine tablet of 3,25 grams in 5 litres of **TOC** solution to disinfect floors and other surfaces.

TECHNICAL DATA

Appearance	transparent liquid (different colours and scents)
pH	7.9 ± 0.3
Density	0.990 g/ml
Active contents	14%

Chemical composition - Reg. (EC) n° 648/2004

- Non-ionic surfactants conc. < 5%
perfumes

The product contains surfactants with primary biodegradability at least 90% and ultimate aerobic biodegradation complying with Reg. (EC) No. 648/2004.

WARNINGS

The product is not classified as dangerous.
