

VIOLA 3C

SUPERCONCENTRATED CLEANER FOR GLOSSY SURFACES (DRY CLEANING SYSTEM)

GENERAL DESCRIPTION

VIOLA 3C is a super-concentrated cleaner for glossy surfaces to be used with dilution systems to prepare VIOLA at the concentration for the point of use.

Cleans and dries quickly without residues and streaks. It is particularly suitable for glossy floors (marble, granite, ceramic tiles) and for crystallized marble or terrazzo floors.

It can also be used for desks, mirrors, glass, sanitary ware, etc. It leaves off a flowery scent. It is particularly suitable for use with MONOKEM RICCIO microfibre cloth or MICROFAST disposable cloth.

It is indicated as a replacement of traditional washing in areas with hard water to avoid residues.

DIRECTION FOR USE

Use **VIOLA 3C** to prepare the VIOLA at standard concentration by diluting 2 parts of water and one part of the product in a bottle with marks (one liter makes 3 liters of VIOLA) or use the Dosakem system with a gray Venturi without tip. For dilution use low hardness water.

The product thus prepared can be sprayed as it is (or further diluted 50%) on the floor or other surfaces.

Spray VIOLA thus prepared on the floor and spread and dry with a mop, a flat mop or a microfiber disposable cloth. It can also be used with a rotary machine with a bonnet pad. For the other surfaces best results are obtained with the microfiber cloth Extraklin. Spray and dry off.

TECHNICAL DATA

Appearance	transparent violet liquid
pH	8.4 ± 0.4
Density	0.891 g/ml
Active contents	60%

Chemical composition – Reg. (EC) 648/2004

- Non-ionic surfactants conc. < 5%

perfumes, Benzyl Salicilate, Hexyl Cinnamaldehyde,
Linalool

The product contains surfactants with primary biodegradability at least 90% and ultimate aerobic biodegradation complying with Reg. (EC) No. 648/2004.

WARNINGS

Labelling

Danger

Highly flammable liquid and vapour. Causes serious eye irritation.

The product is subject to ADR regulations: **UN 1993 Class III.**

Read carefully the safety data sheet before use.
